WHAT PEOPLE ARE SAYING ABOUT “NAME THAT PET!”

“‘Name That Pet!’ is one of those funny, uncategorizable books that are just for pet lovers. It is really a great book!”

Lisa Ann D’Angelo, Managing Editor, Book Review Café

“Pet naming has become one of the first emotional connections we make with our new friend. The author has included humorous, and both contemporary and historical names—along with definitions and references. This is a fun book to read and useful in its own way.”

Susan J. Richey, Librarian, Santa Monica Public Library

“My wife and I were amazed at the scope, details and fun in reading Ms. Jones’ book. When we get our next house pet we will be sure to refer to ‘Name That Pet!’ before we name him or her.”

Mr. M. Zipes, Poughkeepsie, NY

“Having struggled with naming 14 cats and dogs in our family for the past 30 years, we found Naomi’s book fabulous in helping with this interesting challenge. I heartily recommend her great book!”

Paul H. Toffel, M.D., University of Southern California

“Little did I know that I would marvel at the range of fun and quirky names I found in this book. The unexpected variety of options not only amused me, but low and behold, I did find the perfect name for my new kitten!”

Serge Vigeant, Québec, Canada

ACKNOWLEDGEMENTS

This book was a labor of love, and without the ongoing support of my family and friends, could not have come to fruition. I very much want to thank those individuals whose tireless devotion and commitment has made its publication possible.

Thank you Suzie McKig of Syzygy Design Group for your graphics expertise and ongoing support; Collete Ostrye whose superior Librarian skills created a solid foundation to work from; Laurie Welch for her incisive research and genuine enthusiasm for this project; Goldie Paquet for her eagle-eye for detail; Tanya Stewart whose exquisite illustrations tell the story, and Pamela Terry of Opus I Design; her finishing touches and keen publishing expertise have enabled this to come to fruition.

A special thanks to my family of aunts, uncles, cousins and friends whose lifetime of unconditional support and love, have kept me moving forward.

And finally, to my mother, who proclaimed my talent for music and art, before I even had any.

This book is dedicated to the loving memory of my parents; Aunt Tillie; Eddie; Grandma Anna; Christopher; Michael, and Cousins Helene and Alice. You live in my heart.

INTRODUCTION

Congratulations, new pet owner! You have acquired the newest member of your family. He is loving, soft and playful, or scaly and creepy-crawly. He could either be small or large, thick furred or hairless, exuberant or low-key. What he needs is a name that fully describes his personality, his uniqueness. A name he will respond to happily, though he will never get a complex from an unflattering name!

Here in these pages exist over 3000 choices that the whole family can have fun with. Methodically go through each name and take a moment to conjure up an image. If the shoe fits...

If your children have a favorite cartoon or storybook character, they will have a lot of fun choosing from these chapters. Do not be surprised to see many that trigger fond memories from your own childhood. Or, if you are a family of music aficionados, there are many musicians that you may want your pet to honor. The kids may love *Beyoncé* or *Sisqo*, though *Wolfgang* or *Amadeus* may reflect your own classical preference.

NAME THAT PET!

Our culture has produced so many T.V. and movie stars or memorable characters. *Benji* is just one of many endearing wonder dogs that have come from these mediums. How about calling him *Doogie Bowser*, or *Alfalfa* or *Spanky* from “Our Gang”? Who does he remind you of?

If your pet is a northern breed, that chapter will provide names that are more indigenous to a colder climate such as *Aspen* or *Grizzly*. Perhaps, if you have a purebred from a particular country or region, see the section on “Ethnic Origins.” Watch the amusing looks you get when introducing your English Bullmastiff, *Big Ben*. If you own a Russian wolfhound and are a Sacramento Kings fan, then *Vlade* could not be more perfect. You may even select a name based on your own culture.

Having acquired two lovebirds, or siblings from the same litter, the chapter “Dynamic Duos” will list many famous pairs, both male and female, or a combination of each. Or, if his color is outstanding: a beautiful Irish Setter, Chocolate Lab, or Harlequin Great Dane, try *Scarlet*, *Kahlúa* or *Oreo*. The color section will provide names that will make him stand out even more.

If you have a new exotic Himalayan or Abyssinian feline friend, see the chapter on “Cats.”

Do you have a wicked sense of humor? Naming your toy poodle *Hannibal the Cannibal* will surely raise some eyebrows. But if it's your pet that has a wit of his own, then review the “Funsters” chapter. Here you'll find names like *Hijinks* or *Gilligan* that capture his whimsical nature. Also found here are some of the world's renowned comedians.

INTRODUCTION

Besides all the people you might love, do not forget those we love to hate. In “Antiheroes” there are infamous villains and the like. Although historically there are the more noteworthy pets, perhaps your animal companion would like to be named after a First Family pet, as described in “Presidents’ Pets.” Just be sure his name does not sound similar to an obedience command.

For everyone’s tastes, from sports to music, there is a name for any pet. Be creative and take your time. Remember, you will be referring to this name each day and forever. Let your imagination run wild; the possibilities are endless. Have fun!

FAMOUS PETS

ARGO-ARGUS. Ulysses' hunting dog was the only creature to recognize the Greek hero when he returned home disguised as a beggar after 20 years of adventure.

NAME THAT PET!

BY NAOMI JONES

"We really like this book and think that our readers will find 'Name That Pet!' very useful."

— *Dog Fancy Magazine*

Name That Pet! is a book for the ages. It is a true historical and cultural account of those living or dead, real or imagined whom we admire, study, honor, adore, and sometimes even revile; but do respect for their uniqueness of character.

Since our pets are so cherished in our lives, their names are as individual as our own. This volume is chock full of ideas for every conceivable household or untamed pet we might welcome into our hearts, and come to have some personal relationship with. Its categories ranging from personality to ethnicity to stature should help you in choosing the perfect moniker. Just don't call him "Late for Dinner!"

Naomi is a retired canine behaviorist. Her former students are etched in her mind by their names. She dedicates this book to the memory of her beloved Cocker Spaniel, Beaumont.
